

World Tour

Fill in the blanks. Good luck!

- Madagascar is a special place because most of its plants and animals are found nowhere else in the world.

If I were to visit, I would like to see

in the wild because

- The Great Blue Hole on Lighthouse Reef in Belize is so big, it can be seen from outer space.

If I was in space I think I would also be able to see

and I would wave 'hello' to

- Pizza is believed to have been invented in Italy.

The best pizza in the world has

and on top.
